August 31, 2020

Here is what we are putting on every African page..

Literature will be the same for every African page, it's the Stealth literature minus the Stealth 40W; plus we've added 4 pole specs:

- *8M Conical Pole w/2 Bullhorns*
- *8M Stealth Light Pole*
- *12M Double Arm Light Pole*
- *12M Stealth Light Pole*

When adding Africa Pages; go to Templates/Add, and use the one titled "Africa Pages Literature" This will load the correct literature minus the Stealth 40 , as well as the 4 Pole specs, and labels below each one.

We should use a Stealth image for each one, it can be the same image I have or you can use the attached ones, and just rename and add SEO for each specific page.

Also, for each page, we want to add the country flag (high res) on the pages by the name if possible, and SEO optimized. I have found a few you can use and attached them to the email.

Pages in Development:

→ *Benin*
→ *Congo*
→ *Zambia*

Pages complete:

★ *Zimbabwe*
★ *Ethiopia –* *Complete; not published yet*
